## GENERAL FEATURES

- Durable heavy steel construction
- Vends frozen and/or refrigerated products
- Selection capabilities varies based on added technologies
- Over-sized product delivery chute for very large product sizes
- Custom branding capabilities
- High-impact merchandising and aesthetics
- LED lighting
- ETL Listed for indoor and outdoor use

## VMC Computer

- Menu-driven programming
- Guaranteed product delivery
- DEX audit functions
- MDB Compliant
- Card reader and cashless system compatible
- Remote monitoring capabilities
- Programmable soft-drop and multi-vend options
- Flash memory card port (software upgrades, and saves programming data)

## Robotics

- Vends most shapes, sizes, and most packaging
- Robotic simplicity allows for minimal number of parts and motors
- Increased reliability with no moving parts in the freezer or refrigerator
- Modular SCARA robot design
- Vends up to 2 lbs in stock configuration, 4 lbs with special picker tip
- Novel robotic entertainment captures impulse sales
- Simple programming, position robot manually and save
- Theatre-effect, novel robotic entertainment through window
- Hi-tech robotic vacuum delivery system

## Refrigeration

- Energy efficient, save hundreds in energy costs versus other frozen and refrigerated machines
- Proven and reliable internal chest freezer design
- Minimal maintenance required and easy cleaning
- Power loss holding time of 12+ hours
- Minimal temperature loss during loading
- No defrost cycles that could damage frozen product
- Maintains constant -10°F to -20° F temperatures
- Maintains product integrity and exponentially increases shelf-life
- Quick and easy loading bin system accommodates first-in/first-out (FIFO) inventory
- Long-life commercial grade freezer compressor
- Freezer thermostat independent of machine computer-board
- High capacity, averaging 300 SKUs frozen food or 450 SKUs ice cream
